Understanding Matrix BNB

What is Matrix BNB?

Matrix BNB is a decentralized platform built on the opBNB blockchain, allowing members to earn in opBNB abd Sonic tokens through referrals and smart contracts. It utilizes a structured referral system with various levels, allowing members to build teams and earn passive income.

SONIC EVM Blockchain

Sonic Labs is a Layer 1 EVM solution called the SONIC Chain, providing faster transactions with lower fees. This enables instant payouts and makes it a cost-effective platform for users and provides a stable foundation as we continue to develop the Multi Gain Eco System.
